

Enjoying Digital Magazines on Your Tablet or Smartphone

The New Hampshire Downloadable Books Consortium is pleased to announce the arrival of digital magazines, officially known as “Nook Periodicals” to the current collection of eBooks and audiobooks!

Things to Know

- The Nook Periodicals require a Nook app on a compatible device.
- Users are required to register the app with a Barnes & Noble account. (No credit card required!)
- Compatible devices include:
 - iPads, iPhones, and iPod Touches
 - All Android tablets and phones
 - Nook HD, HD+, Nook Tablet, Nook Color
- Users can check out three (3) magazines each week.
- After seven (7) days, the magazines are automatically removed from your NHDB account and you can check out more periodicals. (However, the issues stay on your device and do not expire.)
- The three (3) magazine checkouts do not count against eBook/audiobook checkout limits.
- At this time, only current issues are available for checkout.

Getting Started

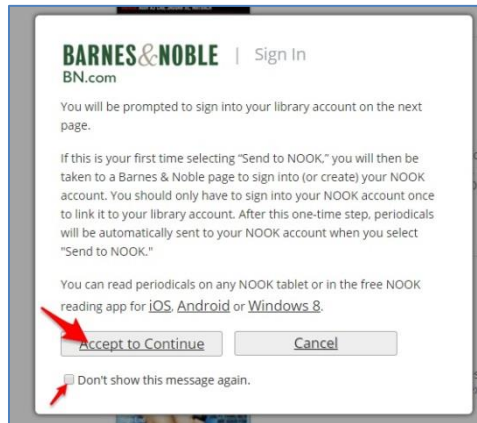

Register for a free account (no credit card necessary) at bn.com and make note of the account details. (There is no email verification necessary, so be sure to type carefully.) You'll need the **email address** and **password** when you register your device and the first time you send a magazine to the device. Search your device's app store for the **Nook** app and download the free app to your device.

Browsing the Collection

Magazines can be found on the front page showcase or by performing an Advanced Search. If doing an Advanced Search, simply change the format to “Nook Periodicals” and click the search button. Once you find a magazine that you would like to check out, click on “Send to Nook app.”

The screenshot shows a digital storefront with two magazine listings. The top listing is for 'Car and Driver' by Hearst, with 250 available copies. The bottom listing is for 'Cook's Illustrated' by America's Test Kitchen, with 100 available copies. A red box highlights the text 'Available Copies: 100 of 100' for the 'Cook's Illustrated' listing, and a red arrow points from this box to the 'Send to NOOK® app' button.

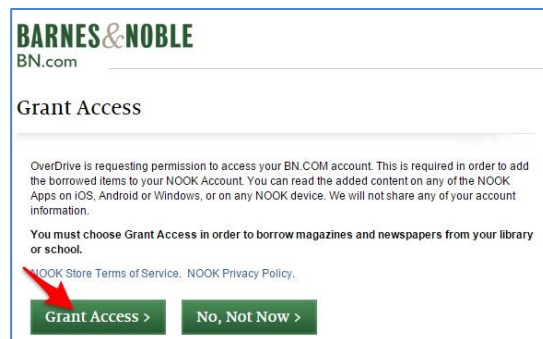

At this point, you'll be prompted to sign into your new Barnes & Noble account...

And if you aren't already signed into your NHDB account, sign into the site first...

Once signed into your NHDB account, you are immediately directed to your B&N account. Use the same email address and password used to set up the account on the new Nook app on your device. And permission must be given in order to use the magazines.

The NHDB page reloads to your account page where you'll receive notice that the magazine has been sent to your account.

At this point, start your device and open the Nook app...

- Find the magazine issue. If you don't see it immediately, swipe downwards with one finger to refresh the screen.
- Click on the cover to start the download.

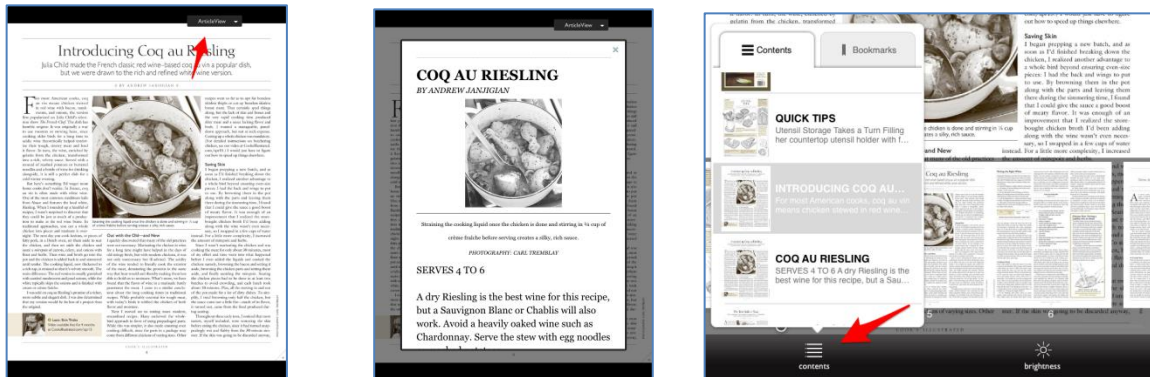

- After the download is complete, tap on the image to start reading.

- The title will stay on your device and associated with your B&N account unless you delete it.
